Advancements in Spinal Surgery: Pursuing perfection

Spinal Surgery Conference

Saturday 28th October 8.00am to 2.00pm

Oceanic Ballroom

The Crown Plaza, Coogee Beach

Free event for GP's, Allied Health and Nursing Staff.

Free morning tea and lunch.

Dr Ralph Mobbs

Laminectomy, the most common spinal operation over 65. Does it work?

Dr Richard Parkinson

Bulging discs: When to refer/should the surgeon intervene?

Dr Ralph Stanford

Options for managing curvature of the spine in the older person.

Dr Andreas Loeffler

The argument for restraint in spinal surgery.

Dr Jacob Fairhall

Evidenced Based spinal surgery: What works?

Dr Raj Reddy

Disc replacement: Is this changing the way we treat necks?

Dr Marc Coughlan

Painful and worn out discs. Choosing the right candidate for fusion.

Dr Angus Gray

Options for managing curvature of the spine in children.

Dr Peter Wilson

Mechanical pain vs. neurological pain. What and when to investigate.

Dr James Yu

Injections for back pain vs. leg pain. Can this help us localise pain generators?

Dr Prashanth Rao

Red flags and other causes of back and neck pain.

Certificate of education hours provided
