My name is Catherine Johnson and I'm an Australian trained adult and paediatric neurosurgeon who has recently joined the neurosurgical department at John Hunter Hospital.

With my private appointment at Newcastle Private Hospital, I aim to provide a comprehensive neurosurgical service to your patients, yourself, and your practice.

While the majority of my training was in Sydney, I have also worked in Canberra, the Gold Coast, Townsville as well as Newcastle, and have recently returned from 2 years overseas in the United Kingdom. I have attained post-fellowship training in spine, neuro-oncology and paediatric neurosurgery. These were completed in Newcastle Australia, Cambridge UK and London UK respectively, and are my key areas of interest.

My approach to patients and their neurosurgical concerns, is to provide a caring and compassionate service, involve and educate patients in their condition, and treat surgically where appropriate. I aim to provide the best patient care I can possible, and expect this of my team also.

I hope to be of as much assistance to you as I can. Please feel free to contact me if you would like to learn more about my service, or if there is any way I can support you and your patients with any neurosurgical concerns.
